#### HISTORY

Announced in January 1999, the Rev. C iMac came in 5 dazzling new colors: Blueberry, Strawberry, Lime, Tangerine and Grape. Essentially a speed-bump of the original iMac, the Rev C. lacked both the mysterious "mezzanine" slot and the IRDA port, which lowered its price to \$1199. In April, Apple replaced the Rev. C with the Rev. D iMac, bumping the processor speed to 333 Mhz. All other specs were the same.
