# Macintosh SE-Bus PC Drive Card

Overview

The Macintosh® SE-Bus PC Drive Card provides the link between an Apple® Macintosh SE personal computer and the Apple PC 5.25 Drive. With this hardware and the Apple File Exchange program (included), you can convert many standard MS-DOS data files for use in Macintosh applications, and Macintosh files into the MS-DOS format.*

Features

▶ Direct interface between Macintosh SE and the Apple PC 5.25 Drive

▶ Apple File Exchange program included

Benefits

▶ In conjunction with the Apple File Exchange software, allows your Macintosh SE to convert files between the Macintosh and MS-DOS formats.

▶ Provides all the interfacing hardware and software you need for a complete data-conversion solution between the Macintosh and MS-DOS environments.

*See the Apple PC 5.25 Drive and Apple File Exchange data sheets for more information.
